Aeroflex 7100 Digital Radio Test Set Wins 4G Wireless Evolution Product of the Year Award

<http://www.aeroflex.com/ats/products/prodfiles/news/02112010.pdf>

Stevenage, UK—February 11, 2010—Technology Marketing Corporation (TMC) has recognized Aeroflex’s contributions to 4G wireless technology with a 4GWE Product of the Year award for the 7100 Digital Radio Test Set. Award recipients represent the most innovative new products brought to market during 2009.

“TMC’s editors selected companies that demonstrated vision and leadership. Companies are recognized for their proven commitment to quality and excellence while addressing needs in the marketplace,” said Carl Ford, founder and community developer of Crossfire Media.

“The 7100 Digital Radio Test Set is a breakthrough product,” said Phil Medd, product manager, Aeroflex Test Solutions. “It puts an unprecedented level of control of layers 1, 2, and 3 at the fingertips of the development engineer.”

About the 7100 Digital Radio Test Set

Based on Aeroflex’s tried and tested RF and baseband technology, the 7100 Digital Radio Test Set is unique in its support of both RF parametric and protocol testing for LTE terminal devices. The 7100 Series simulates a network from the physical layer to the core network IP infrastructure. Focused on the R&D market—from components to

handsets—the Aeroflex 7100 Series is a comprehensive test system for LTE mobile devices incorporated into a small footprint, single bench-top instrument.

Price and availability

The 7100 Digital Radio Test Set is available immediately for order. Pricing depends upon the hardware and software options ordered. For more information, contact your local Aeroflex sales office by visiting or calling Aeroflex Sales at (800) 835-2352 or info-test@aeroflex.com.
